DETAILED ACTION

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 5, 6 and 12 rejected under 35 U.S.C. 102(e) as being anticipated by Shimakawa et al. (Shimakawa) (US 5,802,260).

Regarding claims 1 and 6, Shimakawa discloses a process comprising the steps of establishing a printer driver preference at a first client computer for sending a first print job to an output device (Abstract, lines 1-7), sending the set from the first client computer to a second client computer (Abstract, lines 7-17), modifying a printer driver preference within the sent set at the second client computer (col 4, line 36 – col 6, line 51); and using the set at the second client computer to send a second print job to said first output device (Abstract, lines 15-17).

Regarding claims 5 and 12, Shimakawa discloses the process wherein the output device is a printer (Figure 1, reference elements 109 and 110).
